

FOR ANYONE STUCK ON "WHAT WOULD I EVEN SELL?"

The idea was always the hard part. So we already did it 990 times.

990 done-for-you digital product ideas across 10 niches. Each already has **who it's for, why it sells, a price, and exactly how to build it**. You don't invent a product. You assemble one.

990 IDEAS · 10 NICHES · 9 BONUSES · INSTANT ACCESS

SOUND FAMILIAR?

You want to start. You just don't know **what to sell**.

- ✗ You sit down to start and your mind goes blank: what would I even make?
- ✗ You think of an idea, then talk yourself out of it. Too crowded. Too boring.
- ✗ You've told yourself "I'll figure it out next week" for a month now.
- ✗ Everyone says sell digital products, but nobody shows you what, or how.
- ✗ You're not lazy. You clearly want this. You just have no starting point.

It's not a motivation problem. Nobody handed you a starting point. That's all this fixes.

WHY I BUILT THIS

I paid \$200 for a digital product I never used.

A while back I wanted to sell a digital product too. I had the same blank page. So I did what a lot of people do: I paid someone on Fiverr two hundred dollars to make one for me.

What I got back was generic. Thin. The same thing anyone could find for free. I knew if I tried to sell it I'd be embarrassed, so I never used it. **Two hundred dollars gone, and I was right back where I started**, just more discouraged.

So I built the thing I actually needed back then. Not a course. Not a vague promise. A vault of real, specific product ideas so you never face the blank page, and the exact tools and steps to turn one into a product that's built, listed, and selling.

I'm not going to show you screenshots of money. I don't believe other people's screenshots and neither do you. I'll show you the actual thing you get, and let it stand on its own.

SO HERE'S THE ACTUAL THING · [TURN THE PAGE →](#)

Four of the 990. See who buys each one.

Pulled straight from four different niche packs. This is the format every single idea follows.

FINANCE NO. 103 · WORKBOOK MEDIUM

SELLS FOR

\$14.99–\$24.99

Biweekly Pay Budget Workbook (26-Paycheck Edition)

For the millions paid every two weeks who get blindsided by the two "extra" paychecks a year, a fill-in workbook built around 26 pay dates, not the monthly template everyone keeps getting handed.

HOW TO MAKE IT Map a 26-paycheck calendar with AI, then build a fill-in workbook with per-paycheck allocation pages.

SMALL BUSINESS NO. 301 · WORKBOOK EASY

SELLS FOR

\$14.99–\$27.99

Niche Selection & Validation Workbook

For undecided beginners stuck choosing what to sell, a scored worksheet that weighs passion, demand, and competition and turns a vague gut feeling into a clear pick. (Yes, even this one has a buyer.)

HOW TO MAKE IT Ask AI for scoring rubrics and reflection prompts across demand, fit, and profitability, then assemble fillable worksheets.

SOCIAL MEDIA NO. 400 · CANVA PACK MEDIUM

SELLS FOR

\$19.99–\$34.99

Seasonal & Holiday Content Hook Calendar

For creators who keep missing timely moments and scrambling last minute, a month-by-month menu of seasonal hooks and date prompts they can rebrand and plan around in advance.

HOW TO MAKE IT Prompt AI for seasonal angles and awareness days for all 12 months, then build editable Canva layouts with a fillable planning page per month.

FITNESS NO. 6 · SPREADSHEET EASY

SELLS FOR

\$11.99–\$19.99

Home Gym Kit & Equipment Organizer

For everyone building a home or garage gym who overspends and double-buys, a sheet that tracks owned gear, a wishlist, prices, and a running budget total.

HOW TO MAKE IT Have AI categorize equipment by priority, then build a Google Sheets inventory with owned/wishlist tabs and an auto-summing budget.

Heads up on "How to make it." That line is a plain-English sample of the direction, not the finished prompt. The full, ready-to-paste AI prompts that get you the best result live in the **AI Build Prompt Pack** bonus. What you see here is surface-level on purpose.

Every one of the 990 is spelled out exactly like that, across 10 niches.
The hardest part, the thinking, is already done.
